### U-2 R BRIEFING

25X1A 1. [redacted] CIA/OSA, presented a very comprehensive briefing on the improved U-2 aircraft, designated the U-2 R. His presentation covered the following general areas:

Growth and Potential for Future Use  
Comparison with the U-2 C  
Roles and Potential Missions  
Systems  
Ranges - Various Conditions  
Vulnerability  
Possible Deployment Areas

### U-2 R Program

Go Ahead - September 1966  
12 Aircraft Procured - 6 CIA -- 6 USAF

25X1A

[redacted]  
First Flight - August 1967  
Last Aircraft Production - November 1968

### U-2 R -- U-2 C Comparison

Length  
Wing Span  
Payload

U-2 R

62' 1"  
103'

U-2 C

49' 8.4"  
80'

2. A comparison of the range and overflight capabilities of the U-2 R and U-2 C was presented by [redacted] using a series of charts with comparable ranges, from various operational bases, displayed. [redacted] pointed out, as an example, that all of the China targets were accessible with the U-2 R, from available operating bases, while some of the deep targets such as Lop Nor could not be reached by the U-2 C.

25X1A

25X1D

### Camera Systems

The U-2 R can use the present sensor systems but a new optical bar panoramic system with the following characteristics will be the primary camera system:

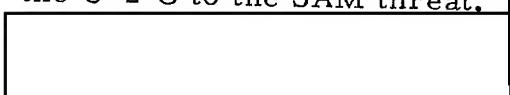

25X1D

Vulnerability

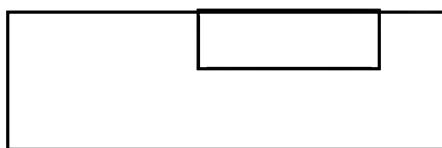

25X1A  
25X1D

[redacted] displayed a graph depicting the comparative vulnerability of the U-2 R and U-2 C. The U-2 R is less vulnerable than the U-2 C to the SAM threat.

3. In summary, [redacted] reviewed the significant features of the  
U-2 R.

Higher Operating Altitude  
Increased Range  
Improved Maneuvering Capability at High Altitude  
Reduced Vulnerability  
Increased Payload  
Modular Packaging Concept  
Quick Reaction Improvement  
Improved Growth Potential

OSP BRIEFING

25X1A

25X1A 8. The use of WAG's for area accounting, historical file and target  
25X1A programming was discussed. [redacted] stated all historical CORONA data  
will, in the near future, be based on the WAG accounting system. In response  
to a question she stated that the use of the WAG system in mission planning and  
operations presents no particular problems and all ICRS requirements could be  
25X1A expressed in WAG cells if desired. [redacted] stated he felt it was important to  
retain the other two methods of expressing requirements for CORONA Program-  
ming and Operation, i.e. COMIREX number or corner coordinates of a parti-  
25X1A cular search area. [redacted] confirmed that this capability will be maintained.

APPROVAL OF MINUTES

9. Draft minutes of the 15 October meeting were approved with minor  
editorial changes plus concurrence with request from [redacted] that a  
paragraph on the discussion held concerning the weekly transaction sheets be  
added.

1107 - 12 Mar 1969  
1050 - 14 May 1969

### SOUTH CHINA/NORTH VIETNAM PRIORITY LIST

11. There were no changes to the South China/North Vietnam Priority List. The following acceptable data base coverage of North Vietnam priority targets was reported by DIA:

25X1A

5 Oct 68

There was no coverage of any priority targets in South China reported.

### 1105 ICRS READOUT REQUIREMENTS

12. A draft proposal of ICRS readout requirements on NPIC for Mission 1105 was approved. [redacted] requested NPIC to note in the covering memorandum when a revised readout list for any mission is published, such as occurred on [redacted]

### TARGET UPDATES

13. The weekly transaction sheets consisting of: 149 Additions  
16 Changes  
2 Inactivations  
11 Deletions

were distributed. The Chairman requested the ICRS Staff be notified by noon Thursday of any objections to proposed actions. In absence of any objections by this time, the proposed actions will be entered into the file.

14. In accordance with the request of DIA at last weeks ICRS meeting, [redacted] reviewed the ICRS actions relative to the procedures of the ICRS Staff for processing the review recommendations returned to the Staff on the WTS. He stated the Staff is picking up the [redacted] and coordinates provided by DIA. In instances where differences occur, the differences should be resolved between the requesting agency and DIA before the review coordinates are accepted. Mr. [redacted] also noted that the COMIREX target name is not necessarily the same as that which is provided by DIA after its WTS review. The city name should agree but the ICRS target list could contain a descriptive name not found in the [redacted] i. e. airfield, complex, etc.

25X1A

25X1A

15. [redacted] asked the DIA representative if it would be possible, if the WTS were segregated by organization, to provide copies containing proposed changes to the requesting organization concerned as well as providing a full set of the WTS to the ICRS Staff for action. [redacted] replied he would look into it.

25X1A

25X1A

16. [redacted] also noted that when the procedures for defining precise coordinates are agreed to that a large part of this problem should disappear.

25X1A

#### OTHER BUSINESS

##### 17. Nomination Form

In response to DIA's request of last week for information on status of the form, the Chairman noted that the COMIREX opinion is that although, in principle, the form has been approved by the COMIREX, that technically it has not been formally approved since the CIA had objected to its formal approval pending agreement on a revised criteria.

##### 18. Cuba

25X1A

[redacted] noted that the Cuban area coverage stood at 84% satisfied and that the low figure was partially attributable to a series of early mission aborts which occurred during the current 56 day time period.
